

***Management of collaborative projects***

**by Alphonse Carlier**

**has just been published by Éditions AFNOR**

**Collaborative projects transform relationships and working methods in organizations, from the moment they are mastered! Information flow, quality of work processes, sharing and distribution of commitments, team management...**

**In this book, Alphonse Carlier gives all the keys and methods to respond to all of these challenges and build, develop and successfully implement a collaborative project management strategy.**

What is an essential issue? How can we open up new possibilities for professions? How to master cross-functional interactions? How to support and train teams? What are the conditions for the success of a relational network? Alphonse Carlier asks the right questions and provides answers that are both thoughtful and pragmatic, informed by experience.

Illustrated with numerous diagrams and tables and many highlighted examples, it details the method of constructing a typical collaborative project. This book proposes and describes an agile management approach based on governance, service management, good practices in

relationship with the main standards, information sharing, deployed architectures, communications, evaluation methods to contribute to the overall performance of the company.

Alphonse Carrier thus provides all the keys to mobilizing all internal or external stakeholders around these new collaborative approaches.

A book intended for project managers, IS designers, technical architects, quality actors, project managers but also for all audiences wishing to acquire new skills.

### The author

**Alphonse Carrier** is a quality consultant and IS project manager. He works at the heart of methods and innovation – IAE, Industrial Engineer, Master in IS and Decision Support, ITIL expert, Master Black Belt Lean Six Sigma, Lean IT, ISO 20K, ISO 27001, internal auditor ISO 9001, TOGAF and Basic Assessor Training EFQM – and supports companies, SMEs/SMLs in their training programs as well as universities in France and Europe. He is the author, for AFNOR Éditions, of *Economic Intelligence and Knowledge Management* and *Business Intelligence and management*, as well as several works published by Hermès Lavoisier: *Quality management for the control of information systems*, *Quality manual for information systems*, *Managing IS developments*, *Expanded IS and Knowledge management*.
